#### Call for Regular Paper Submission:

Authors are invited to submit full-length papers (up to 6 pages). All submissions should be made electronically and be formatted in accordance with the IEEE template. Accepted papers must be presented by an author named in the paper. Otherwise, these papers will not be included in the conference booklet. Up to 2 papers can be submitted with one registration. The Conference Proceedings, containing all accepted and presented papers, will be available in the IEEE Xplore digital library.

#### Call for Special Session and Tutorial Proposals:

Interested participants can propose special sessions and tutorials focused on innovative topics. Each proposal should include the session title, a brief description, and information about the organizer. Special session or tutorial proposals do not guarantee the acceptance of the proposal. Special session papers will go through the same rigorous review process as in regular session.

### Technical Scope:

We invite submissions of original, unpublished technical papers on topics including but not limited to:

- Fuzzy Logic
- Expert Systems
- Autonomous Systems
- Intelligent Agents
- Hybrid Intelligent Systems
- Augmented / Virtual Reality
- Business Intelligence and Applications
- Decision Support Systems
- Image/Video Processing and Pattern Recognition
- Data Science and Knowledge Discovery
- Data Visualization
- Sensor and Data Fusion
- Data Generation
- Data Analytics
- Data Security
- Internet of Things
- Artificial Intelligence Applications
- Biometric Systems
- Generative AI
- Deep Learning
- Machine Learning
- Quantum Computing
- Evolutionary Computing
- Intelligent Optimization Algorithms
- Blockchain and Applications
- Smart Electronic Systems
- Technology, Law and Ethics
